Strategic plan report

Generated from STRATA with the levers and inputs below. Illustrative data.

SCENARIO Base **GENERATED** 2026-09-10

LEVER SETTINGS Domestic demand outlook: 1.00x Energy cost: 100 Capital envelope: SAR 600m

Risk appetite: Selective Export ambition: GCC Carbon cost: None

TYPED INPUTS None. The data files apply as delivered.

1. Strategic direction

PRODUCT MARKET	CATEGORY	RATIONALE
Steel and iron	GROW	Attractive market (4.5% growth, 29% margin) and a strong position (52% share). Invest to grow.
Construction and building materials	GROW	Attractive market (3.8% growth, 23% margin) and a strong position (31% share). Invest to grow.
Glass	MAINTAIN	Solid position (44% share) in a moderate market (3.5% growth). Hold share, protect margin.
Water treatment	GROW	Attractive market (5.5% growth, 29% margin) and a strong position (38% share). Invest to grow.
Chemicals and industrial	IMPROVE	Attractive market (6.0% growth, 29% margin) but a weak position (27% share). Build share or capability.
Agriculture	MAINTAIN	Solid position (22% share) in a moderate market (3.0% growth). Hold share, protect margin.
Bricks market	EXIT	Unattractive market (-1.0% growth, -10% margin) and a weak position (9% share). Plan an orderly exit.
Export, GCC	GROW	Attractive market (49.5% growth, 18% margin) and a strong position (100% of potential served). Invest to grow.

2. Growth portfolio

Capital envelope SAR 600m · Committed SAR 402m · 2031 revenue from new products and markets 11%

INITIATIVE	LAYER	OWNER	STATUS	CAPEX	NPV	START	TRIGGER
Pricing and contract architecture reset	Quick wins	VP Commercial	In plan	4	+100	2027	No lever value changes this.
Kiln energy efficiency retrofit, Riyadh	Foundation	Plant Director Riyadh	In plan	45	+32	2027	No lever value changes this.
Digital plant and predictive maintenance	Foundation	COO	In plan	28	+53	2027	No lever value changes this.
Workforce productivity and Saudization program	Foundation	CHRO	In plan	12	+38	2027	No lever value changes this.
Fleet outsourcing and logistics optimization	Quick wins	VP Supply Chain	In plan	3	+46	2027	No lever value changes this.
Al Kharj capacity expansion, new lime kiln	Transformation	COO	In plan	185	+33	2027	No lever value changes this.
Dolomite line expansion for EAF steel	Transformation	VP Commercial	In plan	62	+46	2028	Stays in while demand ≥ 0.85x
Red Sea export corridor, Jeddah	Scale-up	VP Supply Chain	Out	95	+40		Becomes viable if export ambition ≥ Extended

INITIATIVE	LAYER	OWNER	STATUS	CAPEX	NPV	START	TRIGGER
GCC export sales program	Scale-up	VP Commercial	In plan	8	+41	2027	Stays in while export ambition ≥ GCC
Precipitated calcium carbonate plant	Diversification	CEO	Deferred	210	+18	2028	Funded once envelope ≥ SAR 650m (SAR 50m more)
Ground calcium carbonate grade upgrade	Diversification	Plant Director Jeddah	In plan	34	+28	2027	No lever value changes this.
Water treatment lime and service bundle	Scale-up	VP Commercial	In plan	15	+39	2027	No lever value changes this.
Agricultural lime dealer network	Scale-up	VP Commercial	In plan	6	+12	2028	No lever value changes this.
Acquisition of a Western Region quarry	Diversification	CEO	Deferred	140	-32	2028	NPV below zero at the hurdle rate
Captive lime joint venture with a steel producer	Diversification	CEO	Out	90	+41		Becomes viable if risk appetite ≥ Aggressive
Carbon capture and CO2 utilization pilot	Foundation	Head of Sustainability	Out	70	-44		Becomes viable if carbon cost ≥ Voluntary
Bricks line: harvest and exit	Quick wins	CFO	In plan	0	+28	2027	No lever value changes this.

3. Five-year financials

YEAR	2026	2027	2028	2029	2030	2031
Revenue	612	666	749	805	860	908
EBITDA	141	201	237	255	277	298
Margin	23.0%	30.1%	31.6%	31.6%	32.2%	32.8%
Capex	38	174	201	140	38	38
FCF	103	20	26	108	233	254
Cumulative FCF	0	20	45	153	386	640
Base revenue	612	666	749	805	860	908
Base EBITDA	141	201	237	255	277	298

4. Operations and people

SITE	CAPACITY 2031	UTILIZATION 2031	CAPEX 2027 TO 2031
Riyadh	1,600 kt	94%	SAR 167m
Al Kharj	1,460 kt	90%	SAR 336m
Jeddah	770 kt	94%	SAR 89m

METRIC	2026	2027	2028	2029	2030	2031
Headcount	1,180	1,179	1,261	1,335	1,414	1,482
Saudization	41%	45%	48%	52%	52%	52%
Cost per ton, all in	118	119	119	119	120	119

5. Implementation roadmap

LAYER	INITIATIVE	STATUS	START	RAMP COMPLETE
Immediate priorities and quick wins	Bricks line: harvest and exit	Funded	2027	2027
Immediate priorities and quick wins	Fleet outsourcing and logistics optimization	Funded	2027	2027
Immediate priorities and quick wins	Pricing and contract architecture reset	Funded	2027	2027
Foundation initiatives	Kiln energy efficiency retrofit, Riyadh	Funded	2027	2028
Foundation initiatives	Digital plant and predictive maintenance	Funded	2027	2028
Foundation initiatives	Workforce productivity and Saudization program	Funded	2027	2029
Major transformation and growth	Al Kharj capacity expansion, new lime kiln	Funded	2027	2029
Major transformation and growth	Dolomite line expansion for EAF steel	Funded	2028	2029
Scale-up, geographic expansion and market leadership	GCC export sales program	Funded	2027	2029
Scale-up, geographic expansion and market leadership	Water treatment lime and service bundle	Funded	2027	2028
Scale-up, geographic expansion and market leadership	Agricultural lime dealer network	Funded	2028	2029
Downstream, adjacent-sector and diversification	Ground calcium carbonate grade upgrade	Funded	2027	2028
Downstream, adjacent-sector and diversification	Precipitated calcium carbonate plant	Deferred, capital, needs SAR 50m more	2028	2030

6. Plan against actual

LEVER	PLAN	ACTUAL
Domestic demand outlook	1.00x	Awaiting actual
Energy cost	100	Awaiting actual
Carbon cost	None	Awaiting actual

TRIGGERS FIRED No trigger fired. The plan holds at these actuals.

7. Impact by function
