LEVER SETTINGS Steel consumption outlook: 1.00x Energy cost: 100 Capital envelope: SAR 250m Risk appetite: Selective

Export ambition: GCC Carbon cost: None

TYPED INPUTS None. The data files apply as delivered.

1. Strategic direction

SHIFT AGENDA

SHIFT	PATHWAY	OBJECTIVE	OWNER	STATUS
S1 Export growth: GCC, East Africa and South Asia	Expand the geography	O1 Grow export volume to 50 kt a year by 2031	VP Commercial	At risk
		O2 Open the Red Sea export corridor by 2029	VP Supply Chain	Unfunded
S2 Energy-indexed pricing on lime contracts	Optimize the core	O3 Lift the realized lime price index to 1.03 by 2031	VP Commercial	On track
		O4 Hold EBITDA margin at or above 30 percent from 2028	CFO	On track
S3 Kiln efficiency and condition-based maintenance	Modernize the assets	O5 Cut energy cost per ton of lime by 60 percent by 2028 through the gas switch and kiln efficiency	Plant Director Riyadh	At risk
		O6 Raise kiln availability to 92 percent by 2029	COO	At risk
S4 Central lime capacity expansion timed to steel demand	Optimize the core	O7 Add 100 kt of central lime capacity by 2030 to serve steel growth	COO	On track
S5 Downstream carbonates: fine GCC and PCC	Move along the value chain	O8 Earn 12 percent of 2031 revenue from new products and markets	CEO	At risk
		O9 Secure downstream offtake for 60 percent of PCC volume before commissioning	VP Commercial	Unfunded
S6 Water treatment, agriculture and service revenue	Enter adjacent sectors	O10 Grow water treatment and agriculture lime to 25 percent of lime tons by 2031	VP Commercial	On track
S7 Bricks exit and portfolio focus	Optimize the core	O11 Decide bricks by 2028: keep, fix or exit on the margin after gas	CFO	Unfunded
S8 Emissions reduction and carbon cost readiness	Modernize the assets	O12 Reduce emissions intensity 20 percent from the 2025 baseline by 2031	Head of Sustainability	At risk
S9 Workforce productivity and Saudization	Optimize the core	O13 Reach 50 percent Saudization by 2029	CHRO	On track
		O14 Lift tons per employee 15 percent by 2031	CHRO	On track
S10 Selective bolt-on acquisitions	Enter adjacent sectors	O15 Complete one inorganic move within the envelope by 2030	CEO	Unfunded

CLASSIFICATION

PRODUCT MARKET	CATEGORY	RATIONALE
Steel and iron	GROW	Attractive market (4.5% growth, 35% margin) and a strong position (52% share) . Invest to grow.
Construction and building materials	MAINTAIN	Solid position (31% share) in a moderate market (3.8% growth) . Hold share, protect margin.
Glass	GROW	Attractive market (3.5% growth, 35% margin) and a strong position (44% share) . Invest to grow.
Water treatment	GROW	Attractive market (5.5% growth, 35% margin) and a strong position (38% share) . Invest to grow.
Chemicals and industrial	IMPROVE	Attractive market (6.0% growth, 25% margin) but a weak position (27% share) . Build share or capability.
Agriculture	GROW	Attractive market (3.0% growth, 35% margin) and a strong position (22% share) . Invest to grow.
Bricks market	EXIT	Unattractive market (-1.0% growth, 11% margin) and a weak position (9% share) . Plan an orderly exit.
Export, GCC	GROW	Attractive market (49.5% growth, 28% margin) and a strong position (100% of potential served) . Invest to grow.

2. Scorecard
